

Dear Parent / Guardian,

This is a courtesy letter to inform you that your child's class is now using Studyladder, an online educational program which lets students learn at their own pace.

About Studyladder

Studyladder is a K-6 web-based educational program designed by teachers. The program is curriculum based and covers Mathematics, Literacy and 8 other subjects. Your child has been given a user name and password which can be used to access www.studyladder.com.au at anytime.

Student access

Your child can access this program at school and at home. Students have free school access and limited home access to Studyladder. The free home version allows your child to access 3 new learning activities per day as well as all of their rewards.

Benefits of using Studyladder

It is not compulsory for your child to use Studyladder at home, however regular access will help your child to reinforce what they have learnt at school. It will also help to build their confidence through practice.

Is it safe?

Yes, Studyladder does not support social networking and is designed to avoid bullying. Your child will not be able to chat with other students via Studyladder. However, we encourage you to supervise your child when using the Internet.

To access Studyladder from home:

- Go to www.studyladder.com.au
- Log in using your child's access codes for Studyladder.

If for any reason you are unable to log in, you can open a free parent account which allows the same level of home access. If you require further assistance please email support@studyladder.com.au

Studyladder Access Codes (optional for students to complete)

User name: _____ Password: _____

Kind Regards
