2) Sam started drawing a pentagon. Complete Sam's drawing.

Name: $\qquad$
3) Sam started drawing some shapes. Which shapes is Sam drawing?

$\bigcirc$ square $\bigcirc$ circle
$\bigcirc$ pentagon $\bigcirc$ triangle
$\bigcirc$ square $\bigcirc$ rectangle
$\bigcirc$ triangle $\bigcirc$ circle

$\bigcirc$ square
$\bigcirc$ rectangle
$\bigcirc$ rectangle parallelogram
$\bigcirc$ triangle $\bigcirc$ trapezium
$\bigcirc$ trapezium $\bigcirc$ square
4) Sam has these two shapes.

Which shape could Sam make by joining them together?

## Name:

$\qquad$
5) Which of these shapes has five sides?
$\bigcirc$ square $\bigcirc$ rectangle $\bigcirc$ triangle $\bigcirc$ trapezium
6) How many sides does the star have? $\qquad$

7) Sam drew half a trapezium on a grid. Draw the other half?

8) Draw a line through the star to create two identical shapes, each with six sides.
