

Name: \_\_\_\_\_

## Division no remainders

$$6 \overline{)306}$$

$525 \div 7 = \underline{\quad}$

$$\frac{28}{2} = \underline{\quad}$$

$$4 \overline{)160}$$

$16 \div 8 = \underline{\quad}$

$$\frac{642}{6} = \underline{\quad}$$

$$2 \overline{)202}$$

$114 \div 6 = \underline{\quad}$

$172 \div 4 = \underline{\quad}$

$$\frac{146}{2} = \underline{\quad}$$

$$3 \overline{)30}$$

$130 \div 2 = \underline{\quad}$

$48 \div 8 = \underline{\quad}$

$$\frac{208}{4} = \underline{\quad}$$

### Working Mathematically

- 1) 936 people work at the factory. There are 6 sections with equal numbers of employees. How many people in each section? \_\_\_\_\_

- 2) The 120 guests at the wedding reception are seated at tables of 8. How many guest tables need to be served? \_\_\_\_\_

- 3)  Parents and friends were invited to the annual school awards night. They were seated in rows of 10. How many rows of chairs were needed for 600 parents? \_\_\_\_\_

- 4) Cinderella washed a total of 285 garments for her stepmother and 2 stepsisters. If each person gave her equal amounts, how many items of washing did each person give her? \_\_\_\_\_

- 5) Sleeping Beauty slept for 966 days before Prince Charming woke her up. How many weeks did she slumber? \_\_\_\_\_
