

A Thylacine Sighting

Name:

Date:

Imagine you are in the bush and you sight an animal that you have never seen before. You believe it is the endangered, presumed extinct thylacine. Write an account of the sighting, describing everything you saw.

Describe the conditions:

Where did the sighting occur? Who were you with? What time of the day was it?

Describe what you saw:

How big was the animal? What was it doing? How long did you see it for?

Describe the animal's features in detail:
