

Name: _____

Multiply by 100

$36 \times 100 = \underline{\quad}$

$39 \times 100 = \underline{\quad}$

$100 \times 72 = \underline{\quad}$

$69 \times 100 = \underline{\quad}$

$31 \times 100 = \underline{\quad}$

$100 \times 28 = \underline{\quad}$

$1 \times 100 = \underline{\quad}$

$33 \times 100 = \underline{\quad}$

$100 \times 45 = \underline{\quad}$

$34 \times 100 = \underline{\quad}$

$25 \times 100 = \underline{\quad}$

$100 \times 82 = \underline{\quad}$

$80 \times 100 = \underline{\quad}$

$8 \times 100 = \underline{\quad}$

$100 \times 31 = \underline{\quad}$

$87 \times 100 = \underline{\quad}$

$61 \times 100 = \underline{\quad}$

$100 \times 96 = \underline{\quad}$

$66 \times 100 = \underline{\quad}$

$26 \times 100 = \underline{\quad}$

$100 \times 84 = \underline{\quad}$

$38 \times 100 = \underline{\quad}$

$40 \times 100 = \underline{\quad}$

$100 \times 67 = \underline{\quad}$

Working Mathematically

- 1) Pens come in packs of 100. How many pens in 84 packs? _____ 
- 2) There are 100 paperclips in a box. How many paperclips in 68 boxes? _____
- 3) I bought 45 packets of balloons. Each packet contained 100 balloons. How many balloons did I have altogether? _____ 
- 4) The orchard has olive trees growing in rows of 100. How many olive trees growing in 52 rows? _____ 
- 5) I do 100 sit-ups every morning. How many sit-ups do I do in a week? _____ 
- 6) Each row in the carpark can hold 100 cars. If the car park is full and there are 80 rows, how many cars in the car park? _____
