Eye colour survey

Interesting facts about eye colour

All babies are born with blue eyes. They change to their natural colour by about age three.

Eyes can also change colour due to age or disease.

Some people have one green eye and one brown eye.

Record the eye colour of at least twenty friends and family.

brown _____ grey _____

blue _____ green _____

hazel _____

What eye colour did most people have?

Extension

Use your survey results to make a "eye colour" pie chart.

Writing

Choose a special place you know well.

Picture that place in your mind and list some key descriptive words.

_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

On a separate page, write a detailed description of your special place for someone who has never seen it.

Number crunchers

The average person blinks about 12 times a minute.

How many times will a person blink in:

1 hour? _____

4 hours? _____

12 hours? _____

1 day? _____

Did you know?

Our eyes are always the same size from birth, but our nose and ears never stop growing.
