

Name: _____

Subtract from 1000.

$$\begin{array}{r} 1000 \\ - 201 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 1000 \\ - 729 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 1000 \\ - 134 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 1000 \\ - 272 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 1000 \\ - 864 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 1000 \\ - 980 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 1000 \\ - 965 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 1000 \\ - 998 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 1000 \\ - 724 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 1000 \\ - 516 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 1000 \\ - 232 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 1000 \\ - 866 \\ \hline \\ \hline \end{array}$$

Working Mathematically

1)

Only 135 reached the top

How many climbers didn't make it to the top? _____

1000 people started climbing the mountain.

2) My father had 1000 gold coins.

After giving some away to us how many does he have left? _____

3) 1000 ants went looking for food. 659 went to get the apple. The rest went to get the pear. How many went to get the pear? _____
