Perimeter of Shapes

Drawn on the grid is a square that has sides that are 4 units long.

Perimeter is the distance around a shape.

The perimeter of the square is 4 + 4 + 4 + 4 = 16 units.

1) *Draw a square that has a perimeter of 25 units.*

2) *Draw a rectangle that has a perimeter of 22 units.*

3) *What is the perimeter of the six-sided shape that is shown on the grid?* _____

4) *Draw a six-sided shape that has a perimeter of 34 units.*

**Perimeter
16 units**
