

Name: _____

Division no remainders

$$5 \overline{)45}$$

$72 \div 4 = \underline{\quad}$

$$\frac{21}{7} = \underline{\quad}$$

$$8 \overline{)40}$$

$28 \div 2 = \underline{\quad}$

$$\frac{42}{2} = \underline{\quad}$$

$$6 \overline{)30}$$

$20 \div 5 = \underline{\quad}$

$$\frac{96}{6} = \underline{\quad}$$

$$2 \overline{)28}$$

$32 \div 4 = \underline{\quad}$

$8 \div 4 = \underline{\quad}$

$$\frac{18}{2} = \underline{\quad}$$

$120 \div 8 = \underline{\quad}$

$18 \div 3 = \underline{\quad}$

Working Mathematically

- 1) 4 seagulls decided to share 36 chips equally. How many did they each receive? _____

- 2) 3 children collected shells together:

Joey found 75

Filipo found 32

Hong An found 16

They put all the shells together then shared them equally. How many will they each get? _____

- 3) There are 150 fish in a large tank. There are equal numbers of blue, red and purple fish. How many blue fish are there? _____

- 4) 186 chairs are stacked in groups of 6 each. How many groups are there? _____

- 5) 182 Marchers marched in 7 rows. How many in each row? _____
