1) Write an acrostic poem:

Think of words that are related to the summer season. They could be adjectives describing how a day in summer feels; they could be words describing activities you might enjoy doing on an summer's day. Select words that begin with each of the letters contained in the word 'summer'. Each line in your acrostic poem can consist of single words, if you like, or you can write phrases.

2) Decorate the border with summer inspired designs and colours.
