Adding decimals

The most important thing when adding (or subtracting) decimals is in the 'setting out'.

34.02 + 6.73 + 0.003 =

WHEN SETTING OUT THE EQUATION THE DECIMAL POINTS NEED TO LINE UP.

Line up the decimal points then add like any other sum.

```
  3 4 . 0 2 0
     6 . 7 3 0
+    0 . 0 0 3
  4 0 . 7 5 3
```
line up the point

Calculate the answer to each decimal addition.

23.003 + 3.384 + 0.94 =

```
  23.003
   3.384
+  0.940
_____
_____
```

101.21 + 4.44 + 22.54 =

_____
_____

1.567 + 3.384 + 234.14 =

_____
_____

12.36 + 104.34 + 16.054 =

_____
_____

21.34 + 1.776 + 101.99 =

_____
_____

23.203 + 145.9 + 57.064 =

_____
_____

56.09 + 12.003 + 999.98 =

_____
_____

62.56 + 100.003 + 847.9 =

_____
_____
