

*Michelangelo sculpted many fine statues from white marble.
Make a soap sculpture of a turtle!*

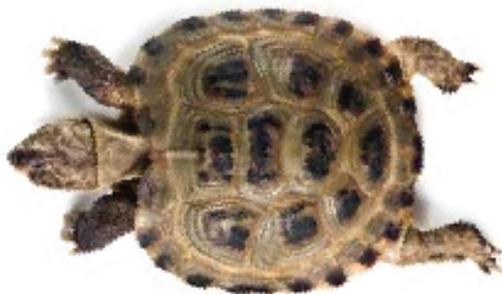

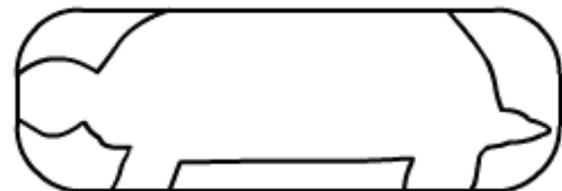

How to sculpt a turtle from soap:

- 1) First carve away layers of soap to get a good turtle shape.*
- 2) Carve small areas at a time and be careful around the legs and head.
(Be aware long narrow parts tend to break off.)*
- 3) Carve fine lines for details such as the shell, the claws and the face.*

Michelangelo carved away at a block of marble with a hammer and chisel to create his wonderful sculptures.

Use these pictures as examples to help you sculpt a figure of a turtle from a cake of soap.

*Scrape away pieces of soap with a knife.
Remember to be very careful with knives!*
