

# What Does An Echidna Eat?

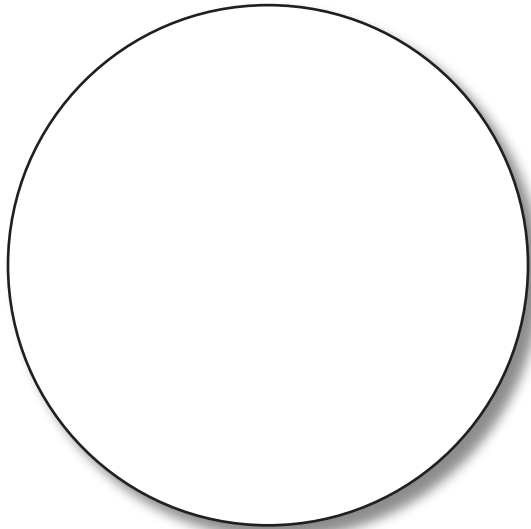

Name:

Date:

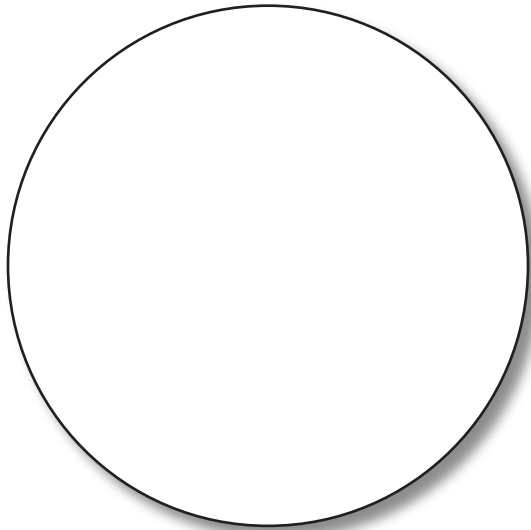

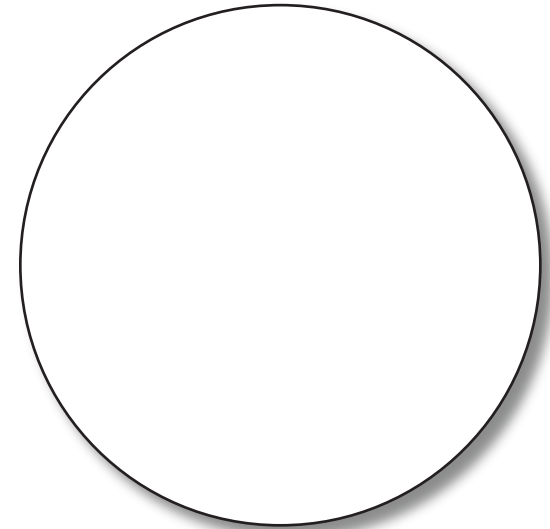

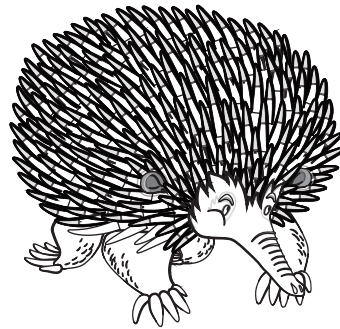

1) Use the words in the vocabulary list to complete the sentences.

2) In each circle, draw and label a creature that an echidna might eat.

**Vocabulary:** *mouth* *plants* *tongue* *plates*  
*termites* *animals* *snout*

Echidnas are **carnivores**. This means that they rely on hunting \_\_\_\_\_ to eat. They do not eat \_\_\_\_\_.

Echidnas have a long sticky \_\_\_\_\_ that they use to lick up small insects like \_\_\_\_\_. Their \_\_\_\_\_ is located on the underside of their long \_\_\_\_\_. Echidnas do not have teeth. They crush their food between their tongue and hard \_\_\_\_\_ inside their mouths.
