Best Pets

Dogs make better pets than cats.

Some people think that dogs make better pets than cats. What do you think?

Write a text to convince a reader of your opinions.

Start with an introduction to let the reader know what you are writing about.

Write your opinions giving reasons that explain them.

Finish with a conclusion giving a summary of your main ideas. This is also your last chance to convince the reader.

Plan your writing before you begin. While writing, remember to:

- Write in sentences.
- Write each new idea in its own paragraph.
- Be aware of spelling and punctuation.
- Use words that best convey your message.
- Continually read your writing and edit your work if needed.
